Elon Musk should still buy Twitter as a loss leader merely for the social philanthropy of knowing he played a historical role in rescuing free speech. Some things are more important than money.

Based British PM of Nigerian origin DESTROYS white guilt for good?

Paul Embery @Paul_Embery 22h
Encouraging to see a senior politician, whatever her party colours, state these important truths

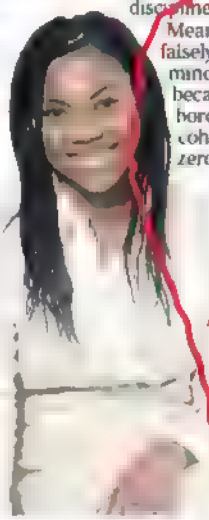
I want to set us free by telling people the truth

Kemi Badenoch
Comment

In 2016 and again in 2019 our country voted for change. Yet still a sense that things aren't working remains. Despite his great success with Covid vaccines, supporting Ukraine and leading us out of the E.U. our prime minister came to embody that feeling.

But he was a symptom of the problems we face, not the cause of them. People are exhausted by platitudes and empty rhetoric. Loving our country, our people or our party is not enough. What's missing is an intellectual grasp of what is required to run the country in an era of increased polarisation, protectionism and populism amplified by social media.

My vote for Brexit in 2016 was a vote of confidence in our abilities as a sovereign country. We have failed to capitalise on that election winning majority of 2019. Change does not mean reheated versions of 1970s, '80s or '90s policies, but a new mission for our age. This requires a smart and nimble centre-right vision that can achieve things despite entrenched opposition from a cultural establishment that will not accept that the world has moved on from Blairism.



Our problems are not unique. Politics is in crisis around the world. The centre-right is out of power in many countries — America, France, Australia and Germany to name a few.

The mainstream right has too often become detached from its voter base, and rather than seeking to understand the new challenges voters faced, ignored them, leading to electoral failure and paving the way for populism in desperation. We cannot allow that to happen here.

Too often people feel that whoever is elected, the answer is more government. By promising too much and trying to solve every problem, politicians don't reassure and inspire, they disappoint and drive disillusion. More taxes. More rules and regulations. And ever cheaper borrowing to keep government afloat no matter the cost to savers or the wider economy.

Instead, we need strong but limited government focused on the essentials.

Lower taxes yes, but to boost growth and productivity, and accompanied by tight spending discipline.

Meanwhile our country is falsely criticised as oppressive to minorities and immoral, because it enforces its own borders. We cannot maintain a cohesive nation state with the zero-sum identity politics we see today.

Exemplified by coercive control, the imposition of views, the shutting down of debate, the end of due process, identity politics is not about tolerance or individual rights but the very opposite of our crucial and enduring British values.

And if we are to see the change we need in this country we need an intellectual framework which recognises that in politics, there is no division between the cultural or economic sphere. It is no surprise the fiercest proclaimers of "social justice" usually believe in the power of government over the people, in the power of the bureaucrat over the individual, and have a distrust of people making their own decisions in the economic sphere just as much as the social.

Without change the Conservative Party, Britain, and the western world will continue to drift. Aggressive and assertive rivals will outpace us economically and outmanoeuvre us internationally.

It won't be enough just to offer better management of relative decline. We need the discipline to transform government into an effective and streamlined machine for delivery, not a piggy bank for pressure groups. Rather than legislate for hurt feelings, as we risk doing with the Online Safety Bill, we must strengthen our democratic culture at a time when democratic values are under assault from without and within. We need to reinvigorate the case for free speech, free markets and the institutions that defend a free people because our values and our ideas are too precious not to fight for with all our heart.

One of my heroes is the American thinker Thomas Sowell, who said that "if you want to help people, tell them the truth, if you want to help yourself, tell them what they want to hear".

I'm putting myself forward in this leadership election because I want to tell the truth. It's the truth that will set us free.

Congratulations to Novak Djokovic, 7 time Wimbledon champion.

Absolute disgrace he is banned from competing at the US Open, depriving Americans of seeing a legend purely due to the political agenda of the Biden administration.

As predicted, the "weather isn't indicative of climate" people start exploiting hot weather in summer to push climate change narratives.

Analysis

Britain's heating climate will become increasingly uncomfortable - and deadly for some

Summer heat has been climbing since the last couple of decades of the last century: the five warmest summers on record have all been since 1976.

Unplanned pregnancy (including teen pregnancy) and abortion rates are both much lower now than they were right before and after Roe v. Wade was originally passed in 1973. Lower by over half in the case of abortion. Abortion has declined every year since 1979. So, that's incorrect.

An abortion is the only medical procedure that you'll never see on the BBC, or any other channel. It's never shown in medical documentaries, or on drama shows like Holby City. Ask yourself why

Ron Paul:

ABORTION

On one occasion in the 1960s when abortion was still illegal, I witnessed, while visiting a surgical suite as an OB/GYN resident, the abortion of a fetus that weighed approximately two pounds. It was placed in a bucket, crying and struggling to breathe, and the medical personnel pretended not to notice. Soon the crying stopped. This harrowing event forced me to think more seriously about this important issue.

That same day in the OB suite, an early delivery occurred and the infant born was only slightly larger than the one that was just aborted. But in this room everybody did everything conceivable to save this child's life. My conclusion that day was that we were overstepping the bounds of morality by picking and choosing who should live and who should die. These were human lives. There was no consistent moral basis to the value of life under these circumstances.

Some people believe that being pro-choice is being on the side of freedom. I've never understood how an act of violence, killing a human being, albeit a small one in a special place, is portrayed as a precious right. To speak only of the mother's

Just wait and see how they react to the hot weather this weekend (it's summer).

Full on panic mode because they have turned our once hard as nails country into a bed-wetting dystopia of hysterical pansies.

Now the Pentagon tells Bush: climate change will destroy us

- Secret report warns of rioting and nuclear war
- Britain will be 'Siberian' in less than 20 years
- Threat to the world is greater than terrorism

Climate change over the next 20 years could result in a global catastrophe [illegible] millions of lives in wars and natural disasters.

A secret report, suppressed by US defence chiefs and obtained by The Observer, warns that major European cities will be sunk beneath rising seas as Britain is plunged into a 'Siberian' climate by 2020. Nuclear conflict, mega-droughts, famine and widespread rioting will erupt across the world

You have to be an Apple user I think. I rejected Apple for being an ass back in 2009. They rolled out an update that broke my Ipod. Most folks went and got new ones. I found third party software that got mine working like new again. Intentional by Apple

Meghan Markle is an insufferable, privileged, cry-baby clown who turned Prince Harry into a pathetic, weasley little boy.

Kate isn't.

That's why the British people don't like her.

It has nothing to do with skin color, you utter spoon.

Britain is probably the least racist country in the world. We take in 300,000 net immigrants every single year.

Prince Harry married an idiot and now he has become one.

Prince Harry reveals he and Meghan will only have two children to help save the planet - and speaks of how 'unconscious bias' is causing racism in Britain during interview for wife's Vogue

The Duke of Sussex (pictured right) 34 made the revelation in an interview with conservationist Dr Jane Goodall (with him) as part of his wife Meghan's edition of British Vogue He also spoke candidly about racism in Britain and how 'unconscious bias' is often passed down from generation to generation Harry told Dr Goodall Britons need to understand where our prejudices come from in order to tackle racial discrimination. He joked he and his wife, 37 (inset) have made a commitment to saving the environment by only having two children.

Reading this book as a kid 30 years ago little did I know how relevant it would be today.

If a person has ugly thoughts, it begins to show on the face. And when that person has ugly thoughts every day, every week, every year, the face gets uglier and uglier until it gets so ugly you can hardly bear to look at it.

A person who has good thoughts cannot ever be ugly. You can have a wonky nose and a crooked mouth and a double chin and stick-out teeth, but if you have good thoughts they will shine out of your face like sunbeams and you will always look lovely.

Meghan Markle is an insufferable, privileged, cry-baby clown who turned Prince Harry into a pathetic, weasley little boy.

Kate isn't.

That's why the British people don't like her.

It has nothing to do with skin color, you utter spoon.

Chappelle's new show has 8.5 on IMDB (where user reviews are allowed) yet just 17% on Rotten Tomatoes (where all reviews are by "critics").

Americans are tired of being lectured by pedantic 'woke' idiots about what they're allowed to laugh at.

Britain is probably the least racist country in the world. We take in 300,000 net immigrants every single year.

Prince Harry married an idiot and now he has become one.

Prince Harry reveals he and Meghan will only have two children to help save the planet - and speaks of how 'unconscious bias' is causing racism in Britain during interview for wife's Vogue

The Duke of Sussex (pictured right) 34 made the revelation in an interview with conservationist Dr Jane Goodall (with him) as part of his wife Meghan's edition of British Vogue He also spoke candidly about racism in Britain and how 'unconscious bias' is often passed down from generation to generation Harry told Dr Goodall Britons need to understand where our prejudices come from in order to tackle racial discrimination. He joked he and his wife, 37 (inset) have made a commitment to saving the environment by only having two children.

Britain is probably the least racist country in the world. We take in 300,000 net immigrants every single year.

Prince Harry married an idiot and now he has become one.

Prince Harry reveals he and Meghan will only have two children to help save the planet - and speaks of how 'unconscious bias' is causing racism in Britain during interview for wife's Vogue

The Duke of Sussex (pictured right), 34, made the revelation in an interview with conservationist Dr Jane Goodall (with him) as part of his wife Meghan's edition of British Vogue. He also spoke candidly about racism in Britain and how 'unconscious bias' is often passed down from generation to generation. Harry told Dr Goodall Britons need to understand where our prejudices come from in order to tackle racial discrimination. He joked he and his wife, 37 (inset) have made a commitment to saving the environment by only having two children.

Meghan Markle's top didn't just look good - it delivered a feminist message

The Duchess looked sleek in monochrome colours, but it was her black bodysuit from Tuxe that was clearly carefully chosen to mark the occasion.

And now with EU banning the production of combustion engines after 2035, and everything around the world is transported by trucks, so, with the gradual decrease over the years in fuel production (transition), the value of gasoline skyrockets, generating more GLOBAL INFLATION

Meghan Markle is an insufferable, privileged, cry-baby clown who turned Prince Harry into a pathetic, weasley little boy.

Kate isn't.

That's why the British people don't like her.

It has nothing to do with skin color, you utter spoon.

Britain is probably the least racist country in the world. We take in 300,000 net immigrants every single year.

Prince Harry married an idiot and now he has become one.

Prince Harry reveals he and Meghan will only have two children to help save the planet - and speaks of how 'unconscious bias' is causing racism in Britain during interview for wife's Vogue

The Duke of Sussex (pictured right), 34, made the revelation in an interview with conservationist Dr Jane Goodall (with him) as part of his wife Meghan's edition of British Vogue. He also spoke candidly about racism in Britain and how 'unconscious bias' is often passed down from generation to generation. Harry told Dr Goodall Britons need to understand where our prejudices come from in order to tackle racial discrimination. He joked he and his wife, 37 (inset) have made a commitment to saving the environment by only having two children.

Britain is probably the least racist country in the world. We take in 300,000 net immigrants every single year.

Prince Harry married an idiot and now he has become one.

Prince Harry reveals he and Meghan will only have two children to help save the planet - and speaks of how 'unconscious bias' is causing racism in Britain during interview for wife's Vogue

The Duke of Sussex (pictured right), 34, made the revelation in an interview with conservationist Dr Jane Goodall (with him) as part of his wife Meghan's edition of British Vogue. He also spoke candidly about racism in Britain and how 'unconscious bias' is often passed down from generation to generation. Harry told Dr Goodall Britons need to understand where our prejudices come from in order to tackle racial discrimination. He joked he and his wife, 37 (inset) have made a commitment to saving the environment by only having two children.

Meghan Markle is an insufferable, privileged, cry-baby clown who turned Prince Harry into a pathetic, weasley little boy.

Kate isn't.

That's why the British people don't like her.

It has nothing to do with skin color, you utter spoon.

Britain is probably the least racist country in the world. We take in 300,000 net immigrants every single year.

Prince Harry married an idiot and now he has become one.

Prince Harry reveals he and Meghan will only have two children to help save the planet - and speaks of how 'unconscious bias' is causing racism in Britain during interview for wife's Vogue

The Duke of Sussex (pictured right), 34, made the revelation in an interview with conservationist Dr Jane Goodall (with him) as part of his wife Meghan's edition of British Vogue. He also spoke candidly about racism in Britain and how 'unconscious bias' is often passed down from generation to generation. Harry told Dr Goodall Britons need to understand where our prejudices come from in order to tackle racial discrimination. He joked he and his wife, 37 (inset) have made a commitment to saving the environment by only having two children.

Record number of migrants cross English channel in one day. Nearly 700 arriving on boats and being given a taxi service by our "Border Force".

17,000 so far this year.

Many of them just disappear into society. Absolute shambles.

Most Brits expect cost of living crisis riots this year.

Food, energy and fuel bills soaring to insane levels.

We warned this would happen, and were told to shut up and 'support Ukraine'.

Now we have runaway inflation, a cost of living crisis, fuel poverty, civil unrest and a crippling recession on the horizon.

Britain is probably the least racist country in the world. We take in 300,000 net immigrants every single year.

Prince Harry married an idiot and now he has become one.

Prince Harry reveals he and Meghan will only have two children to help save the planet - and speaks of how 'unconscious bias' is causing racism in Britain during interview for wife's Vogue

The Duke of Sussex (pictured right), 34, made the revelation in an interview with conservationist Dr Jane Goodall (with him) as part of his wife Meghan's edition of British Vogue. He also spoke candidly about racism in Britain and how 'unconscious bias' is often passed down from generation to generation. Harry told Dr Goodall Britons need to understand where our prejudices come from in order to tackle racial discrimination. He joked he and his wife, 37 (inset) have made a commitment to saving the environment by only having two children.

To manufacture each EV auto battery, you must process 25,000 pounds of brine for the lithium, 30,000 pounds of ore for the cobalt, 5,000 pounds of ore for the nickel, and 25,000 pounds of ore for copper.

All told, you dig up 500,000 pounds of the earth's crust for one battery."

Unlike most leftists who laughed & celebrated when Infowars was purged by Big Tech, I vehemently oppose the censorship and deletion of left-wing pages by Facebook and Twitter.

If you don't support free speech for even your most ardent adversaries, you don't support free speech.

Interesting mirror effect of how America becomes more and more lawless at the bottom, rampant criminality, shoplifting effectively legalized in liberal cities, this is in turn reflected at the very top.

Since 2002, the UK population has grown by 8 million.

80 per cent of that is immigration.

We are a population of 67 million packed into a small island with little space and public services stretched to breaking point.

Totally unsustainable.

Dog catches monkeypox after sharing owners' bed

Italian Greyhound belonging to a gay Parisian couple is the first reported case of a domesticated dog or cat catching the virus

By Joe Pinkstone, SCIENCE CORRESPONDENT

14 August 2022 • 2:49pm

A dog has been infected with monkeypox for the first time after sharing a bed with its infected owners, scientists have said.

It is the first reported case of a domesticated dog or cat catching the virus and comes as the virus continues to spread worldwide in people.

Two gay men living in Paris developed monkeypox symptoms at the start of June and went to a hospital, where their lesions were identified as being caused by the disease.

The non-exclusive couple, aged 44 and 27-years-old, developed sore lesions in their anal region as well as over the rest of their body a week after having sex with other men.

Detectives investigating the murder of a grandfather stabbed while riding a mobility scooter have released images of a man seen running from the scene armed with a knife.

Thomas O'Halloran, 87, died on Cayton Road, Greenford, west London, after being attacked just after 16:00 BST on Tuesday.

Ch Supt Sean Wilson said it was an act of "unprovoked violence".

Police now want to identify the man from CCTV as a matter of urgency.

He is described as wearing grey shorts, a dark coloured T-shirt, a white baseball cap and white patterned builder style gloves.

Det Ch Insp Jim Eastwood, who is leading the investigation, said: "He is clearly a dangerous individual and people are advised not to approach him, but to call us immediately on 999 if they know him or have any information regarding his whereabouts."

The rise of Andrew Tate is ruining my freshman boys

Policy & Politics

Have y'all heard of a sexist, misogynistic, disgusting excuse of human being known as Andrew Tate?

Well, I promise you all your middle school & high school boys have & they're addicted to his content. Just this week I had to have 6 convos with families about their sons saying shit like "women are inferior to men" "women belong in the kitchen Ms_____".

Not only are they making these misogynistic claims in class but are literally refusing to do assignments if it's sourced from a woman....I had three boys refuse to read an article by a female author because "women should only be housewives". But when I say "I'm a teacher and here teaching you" the cognitive dissonance kicks in and they start saying "yah but teaching is a woman's job"...??!?

I love how his derangement is so wild, he thinks 'Trump University' is a bigger scandal than a deliberate "conspiracy"to interfere in a democratic election.

In Trump University, people payed thousands of dollars to learn next to nothing! So it's like most college experiences, only far cheaper and they didn't learn active disinformation. Sounds like a bargain.

Devon and Cornwall police say public is "clogging up 999 phone lines" reporting neighbours for violating a hose pipe ban that doesn't even take effect until next week.

Pathetic, tattle-tale society amplified by snitch lockdown mentality. UK didn't used to be like this.

I think hose pipe is a name for the water tap on the side of a home, so it may be a ban on watering grass?

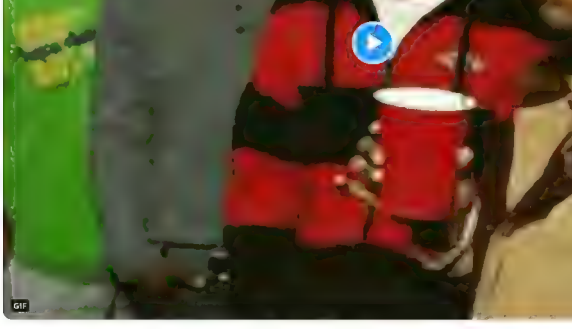
White privilege.

The informed sources have alleged that recruitment officers were directed to prioritise the placement of women and ethnic minorities on training courses in the year to 31 March 2021.



One of the sources alleged this included bringing into the pipeline dozens of female and minority ethnic candidates early and paying them salaries earlier than their white male counterparts.

How you get monkeypox

Monkeypox can be passed on from person to person through:

- any close physical contact with monkeypox blisters or scabs (including during sexual contact, kissing, cuddling or holding hands)
- touching clothing, bedding or towels used by someone with monkeypox
- the coughs or sneezes of a person with monkeypox when they're close to you

70% of pubs in the UK say if electricity prices continue to soar, they'll be forced to close down.

Many face a 600% increase in power costs this winter.

Meanwhile, Boris sends another £54 million to Ukraine.

Let that sink in.

Ex-BBC reporter apologizes for racism, proceeds to use term "hideously white."

Iain Macwhirter @IainMacWhirter · 16h

An apology

"Earlier, I made an ironic reference to a term used by some on the left about black people who are deemed traitors to the cause through joining the Tory Party. After I posted it, I realised this joke might give offence and deleted it. It was unacceptable language, wide open to misinterpretation, and I am sincerely sorry for the distress I have caused. I have repeatedly applauded the Conservatives for having the most diverse cabinet in British history. Indeed, I tweeted earlier that the Truss cabinet made the Scottish Government look "hideously white". I have always championed racial diversity in my columns and I am dismayed that my cack-handed attempt at humour suggested otherwise.

They can't give it a rest with the "diversity" and "white privilege" crap for 5 fucking minutes on the day the Queen of England dies.

It's a cult. And this is our national broadcaster.

Sam Ashworth-Hayes
@SAshworthHayes

BBC Radio 4 busy telling us about how the monarchy is "at odds with society", which values "equality, diversity, inclusivity", while the monarchy is "about white inherited privilege", at odds with our "multi-faith, multi-ethnic society".

Great work from our national broadcaster.

Robby Starbuck @robbystarbuck 6h

The "all ages" drag show in Memphis we warned everyone about was shut down by Memphis Police tonight. Amazing. There's no safe space in Tennessee to sexualize kids We'll stop ALL of this insanity here!

The first war in my lifetime where we weren't constantly bombarded by images and videos and embedded reporters. This one is really quiet with almost no visuals

They aren't showing us what's going on. They are telling us what's going on. That always makes me highly suspicious

Whether it's a guy with a beard calling himself Susan & therefore he is now a REAL WOMAN
Or welcoming in thousands of people who hate everything about your way of life
You must be FAR RIGHT !

So you think that as soon as the far right becomes mainstream it suddenly transforms into what? The centre? Centre right? No, it retains its characteristics, it doesn't change its nature

Woman in the 'neighboring apartment' also lived in a completely separate building.

Good series, but looks like they ginned up the social justice angle to try to satiate woke mobs.

gifgasaanval heeft uitgevoerd, dit keer op een ziekenhuis in Douma, de laatste stad in Oost-Ghouta die nog in handen van rebellen is. Daar zou het regime deze nacht een gifgasaanval hebben uitgevoerd. Dat zeggen verschillende ngo's waaronder de Syrische hulporganisatie Witte Helmen. Daarbij zouden meer dan "100 doden en 1.000 gewonden" gevallen zijn. De Verenigde Staten wijzen eveneens op de verant woordelijkheid van Rusland, dat al ontkend heeft dat het Syrische leger chemisch gas heeft ingezet.

Volgens de Witte Helmen, die op hun Twitter-account schokkende beelden van slachtoffers publiceren met wit schuim op de lippen, vielen bij de aanval van vannacht minstens 150 doden en 1.000 gewonden.

Een helikopter van de Syrische luchtmacht zou zaterdagavond in Douma een vatenbom met chemicaliën gedropt hebben, zo zeggen de Withelmen. Aanvankelijk sprak de organisatie van "meer dan veertig doden en honderden gewonden", maar ondertussen stelde ze de balans al bij naar "minstens 150 doden en 1.000 gewonden". Hele families zouden in hun schuilplaatsen zijn gestikt.

Ook de de Unie van Syrische Medische Organisaties (UOSSM) gaat uit van een chemische aanval, zo zei de organisatie eerder al. UOSSM gaf daar toen de balans van 25 doden en meer dan 500 gewonden bij. "Het is een van de ergste chemische aanvallen ooit in Syrië", zei voorzitter Ghanem Tayara.

Daarnaast gaf het in Groot-Brittannië gevestigde Syrisch Observatorium voor de Mensenrechten zaterdagavond op zijn website te kennen dat zeker elf mensen, onder wie minstens vijf kinderen, gestikt waren na bombardementen in Douma.

gifgasaanval heeft uitgevoerd, dit keer op een ziekenhuis in Douma, de laatste stad in Oost-Ghouta die nog in handen van rebellen is. Daar zou het regime deze nacht een gifgasaanval hebben uitgevoerd. Dat zeggen verschillende ngo's waaronder de Syrische hulporganisatie Witte Helmen. Daarbij zouden meer dan "100 doden en 1.000 gewonden" gevallen zijn. De Verenigde Staten wijzen eveneens op de verantwoordelijkheid van Rusland, dat al ontkend heeft dat het Syrische leger chemisch gas heeft ingezet.

Volgens de Witte Helmen, die op hun Twitter-account schokkende beelden van slachtoffers publiceren met wit schuim op de lippen, vielen bij de aanval van vannacht minstens 150 doden en 1.000 gewonden.

Een helikopter van de Syrische luchtmacht zou zaterdagavond in Douma een vatenbom met chemicaliën gedropt hebben, zo zeggen de Withelmen. Aanvankelijk sprak de organisatie van "meer dan veertig doden en honderden gewonden", maar ondertussen stelde ze de balans al bij naar "minstens 150 doden en 1.000 gewonden". Hele families zouden in hun schuilplaatsen zijn gestikt.

Ook de de Unie van Syrische Medische Organisaties (UOSSM) gaat uit van een chemische aanval, zo zei de organisatie eerder al. UOSSM gaf daar toen de balans van 25 doden en meer dan 500 gewonden bij. "Het is een van de ergste chemische aanvallen ooit in Syrië", zei voorzitter Ghanem Tayara.

Daarnaast gaf het in Groot-Brittannië gevestigde Syrisch Observatorium voor de Mensenrechten zaterdagavond op zijn website te kennen dat zeker elf mensen, onder wie minstens vijf kinderen, gestikt waren na bombardementen in Douma.

gifgasaanval heeft uitgevoerd, dit keer op een ziekenhuis in Douma, de laatste stad in Oost-Ghouta die nog in handen van rebellen is. Daar zou het regime deze nacht een gifgasaanval hebben uitgevoerd. Dat zeggen verschillende ngo's waaronder de Syrische hulporganisatie Witte Helmen. Daarbij zouden meer dan "100 doden en 1.000 gewonden" gevallen zijn. De Verenigde Staten wijzen eveneens op de verant woordelijkheid van Rusland, dat al ontkend heeft dat het Syrische leger chemisch gas heeft ingezet.

Volgens de Witte Helmen, die op hun Twitter-account schokkende beelden van slachtoffers publiceren met wit schuim op de lippen, vielen bij de aanval van vannacht minstens 150 doden en 1.000 gewonden.

Een helikopter van de Syrische luchtmacht zou zaterdagavond in Douma een vatenbom met chemicaliën gedropt hebben, zo zeggen de Withelmen. Aanvankelijk sprak de organisatie van "meer dan veertig doden en honderden gewonden", maar ondertussen stelde ze de balans al bij naar "minstens 150 doden en 1.000 gewonden". Hele families zouden in hun schuilplaatsen zijn gestikt.

Ook de de Unie van Syrische Medische Organisaties (UOSSM) gaat uit van een chemische aanval, zo zei de organisatie eerder al. UOSSM gaf daar toen de balans van 25 doden en meer dan 500 gewonden bij. "Het is een van de ergste chemische aanvallen ooit in Syrië", zei voorzitter Ghanem Tayara.

Daarnaast gaf het in Groot-Brittannië gevestigde Syrisch Observatorium voor de Mensenrechten zaterdagavond op zijn website te kennen dat zeker elf mensen, onder wie minstens vijf kinderen, gestikt waren na bombardementen in Douma.

gifgasaanval heeft uitgevoerd, dit keer op een ziekenhuis in Douma, de laatste stad in Oost-Ghouta die nog in handen van rebellen is. Daar zou het regime deze nacht een gifgasaanval hebben uitgevoerd. Dat zeggen verschillende ngo's waaronder de Syrische hulporganisatie Witte Helmen. Daarbij zouden meer dan "100 doden en 1.000 gewonden" gevallen zijn. De Verenigde Staten wijzen eveneens op de verantwoordelijkheid van Rusland, dat al ontkend heeft dat het Syrische leger chemisch gas heeft ingezet.

Volgens de Witte Helmen, die op hun Twitter-account schokkende beelden van slachtoffers publiceren met wit schuim op de lippen, vielen bij de aanval van vannacht minstens 150 doden en 1.000 gewonden.

Een helikopter van de Syrische luchtmacht zou zaterdagavond in Douma een vatenbom met chemicaliën gedropt hebben, zo zeggen de Withelmen. Aanvankelijk sprak de organisatie van "meer dan veertig doden en honderden gewonden", maar ondertussen stelde ze de balans al bij naar "minstens 150 doden en 1.000 gewonden". Hele families zouden in hun schuilplaatsen zijn gestikt.

"Een van de ergste chemische aanvallen ooit in Syrië"

Ook de de Unie van Syrische Medische Organisaties (UOSSM) gaat uit van een chemische aanval, zo zei de organisatie eerder al. UOSSM gaf daar toen de balans van 25 doden en meer dan 500 gewonden bij. "Het is een van de ergste chemische aanvallen ooit in Syrië", zei voorzitter Ghanem Tayara.

Daarnaast gaf het in Groot-Brittannië gevestigde Syrisch Observatorium voor de Mensenrechten zaterdagavond op zijn website te kennen dat zeker elf mensen, onder wie minstens vijf kinderen, gestikt waren na bombardementen in Douma.

gifgasaanval heeft uitgevoerd, dit keer op een ziekenhuis in Douma, de laatste stad in Oost-Ghouta die nog in handen van rebellen is. Daar zou het regime deze nacht een gifgasaanval hebben uitgevoerd. Dat zeggen verschillende ngo's waaronder de Syrische hulporganisatie Witte Helmen. Daarbij zouden meer dan "100 doden en 1.000 gewonden" gevallen zijn. De Verenigde Staten wijzen eveneens op de verantwoordelijkheid van Rusland, dat al ontkend heeft dat het Syrische leger chemisch gas heeft ingezet.

Volgens de Witte Helmen, die op hun Twitter-account schokkende beelden van slachtoffers publiceren met wit schuim op de lippen, vielen bij de aanval van vannacht minstens 150 doden en 1.000 gewonden.

Een helikopter van de Syrische luchtmacht zou zaterdagavond in Douma een vatenbom met chemicaliën gedropt hebben, zo zeggen de Withelmen. Aanvankelijk sprak de organisatie van "meer dan veertig doden en honderden gewonden", maar ondertussen stelde ze de balans al bij naar "minstens 150 doden en 1.000 gewonden". Hele families zouden in hun schuilplaatsen zijn gestikt.

Ook de de Unie van Syrische Medische Organisaties (UOSSM) gaat uit van een chemische aanval, zo zei de organisatie eerder al. UOSSM gaf daar toen de balans van 25 doden en meer dan 500 gewonden bij. "Het is een van de ergste chemische aanvallen ooit in Syrië", zei voorzitter Ghanem Tayara.

Daarnaast gaf het in Groot-Brittannië gevestigde Syrisch Observatorium voor de Mensenrechten zaterdagavond op zijn website te kennen dat zeker elf mensen, onder wie minstens vijf kinderen, gestikt waren na bombardementen in Douma.

gifgasaanval heeft uitgevoerd, dit keer op een ziekenhuis in Douma, de laatste stad in Oost-Ghouta die nog in handen van rebellen is. Daar zou het regime deze nacht een gifgasaanval hebben uitgevoerd. Dat zeggen verschillende ngo's waaronder de Syrische hulporganisatie Witte Helmen. Daarbij zouden meer dan "100 doden en 1.000 gewonden" gevallen zijn. De Verenigde Staten wijzen eveneens op de verantwoordelijkheid van Rusland, dat al ontkend heeft dat het Syrische leger chemisch gas heeft ingezet.

Volgens de Witte Helmen, die op hun Twitter-account schokkende beelden van slachtoffers publiceren met wit schuim op de lippen, vielen bij de aanval van vannacht minstens 150 doden en 1.000 gewonden.

Een helikopter van de Syrische luchtmacht zou zaterdagavond in Douma een vatenbom met chemicaliën gedropt hebben, zo zeggen de Withelmen. Aanvankelijk sprak de organisatie van "meer dan veertig doden en honderden gewonden", maar ondertussen stelde ze de balans al bij naar "minstens 150 doden en 1.000 gewonden". Hele families zouden in hun schuilplaatsen zijn gestikt.

Ook de de Unie van Syrische Medische Organisaties (UOSSM) gaat uit van een chemische aanval, zo zei de organisatie eerder al. UOSSM gaf daar toen de balans van 25 doden en meer dan 500 gewonden bij. "Het is een van de ergste chemische aanvallen ooit in Syrië", zei voorzitter Ghanem Tayara.

Daarnaast gaf het in Groot-Brittannië gevestigde Syrisch Observatorium voor de Mensenrechten zaterdagavond op zijn website te kennen dat zeker elf mensen, onder wie minstens vijf kinderen, gestikt waren na bombardementen in Douma.

Daar zou het regime deze nacht een gifgasaanval hebben uitgevoerd. Dat zeggen verschillende ngo's waaronder de Syrische hulporganisatie Witte Helmen. Daarbij zouden meer dan "100 doden en 1.000 gewonden" gevallen zijn. De Verenigde Staten wijzen eveneens op de verant woordelijkheid van Rusland, dat al ontkend heeft dat het Syrische leger chemisch gas heeft ingezet.

Volgens de Witte Helmen, die op hun Twitter-account schokkende beelden van slachtoffers publiceren met wit schuim op de lippen, vielen bij de aanval van vannacht minstens 150 doden en 1.000 gewonden.

Een helikopter van de Syrische luchtmacht zou zaterdagavond in Douma een vatenbom met chemicaliën gedropt hebben, zo zeggen de Withelmen. Aanvankelijk sprak de organisatie van "meer dan veertig doden en honderden gewonden", maar ondertussen stelde ze de balans al bij naar "minstens 150 doden en 1.000 gewonden". Hele families zouden in hun schuilplaatsen zijn gestikt.

Ook de de Unie van Syrische Medische Organisaties (UOSSM) gaat uit van een chemische aanval, zo zei de organisatie eerder al. UOSSM gaf daar toen de balans van 25 doden en meer dan 500 gewonden bij. "Het is een van de ergste chemische aanvallen ooit in Syrië", zei voorzitter Ghanem Tayara.

Daarnaast gaf het in Groot-Brittannië gevestigde Syrisch Observatorium voor de Mensenrechten zaterdagavond op zijn website te kennen dat zeker elf mensen, onder wie minstens vijf kinderen, gestikt waren na bombardementen in Douma.

"Devoted wife and mother."

Gonna need a fact check here.

I love my husband but I'm addicted to having sex with strangers: She's a devoted wife and mother — and yet is utterly unrepentant about having eight affairs during her 20 year marriage

So pathetic how they hyperventilate, call them Nazis and try to no platform. Just win the argument - if they are really so extreme then obviously nobody will be swayed by them. The left's policies have been so catastrophic we desperately need new approaches.

So pathetic how they hyperventilate, call them Nazis and try to no platform. Just win the argument - if they are really so extreme then obviously nobody will be swayed by them. The left's policies have been so catastrophic we desperately need new approaches.

Rolex is a Charity

People also ask

Does Rolex give profit to charity?

5. **Rolex is a charity**. Rolex is currently owned by the Hans Wilsdorf Foundation, which finds the largest scholarship endowment in Europe. Rolex is not owned by an individual and so the trustees of the foundation oversee how profits are distributed. 8 Jul 2021

Is massive boob trans guy the world's cleverest troll?

Anonymous (ID: +37lw1b0)

09/21/22(Wed)21:30:10 No.396375358

This dude is gaming the system. An anon here yesterday was in this dude's class. This teacher was almost fired for 'toxic masculinity' last year, as well as not embracing woke culture. He'd drop redpills to his class, such as how silly gender neutral bathrooms are. The school board hates him.

He's now upping the ante to exploit the very clown world the school and society itself created. His long game is most likely to get fired, and then sue for discrimination. There is no other explanation... No better way to troll clown world than to become an over-the-top caricature of a woman.

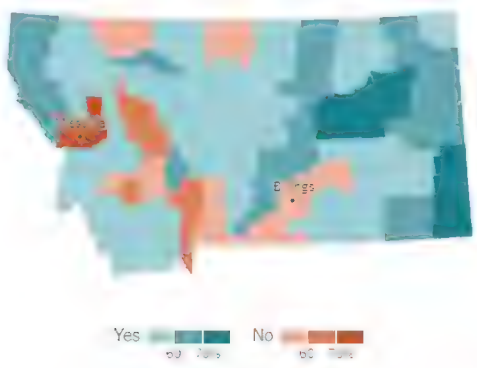
We live in hell.



Montana Legislative Referendum 131

Born-Alive Infants Regulation

The measure would enact a law making any infant "born alive" at any gestational age a legal person, a protection that already exists under a federal law passed 20 years ago. It would criminalize health care providers who do not make every effort to save the life of an infant "born during an attempted abortion" or after labor or C-section. Doctors say they are concerned that the law will limit palliative care for infants who are born but will not survive.

Lotta people angry and horrified about Montana voting to let a baby die after birth

But the devil is in the details and this is how horrific stuff passes sometimes when it shouldn't

Read that. That's how it read on the ballot. How would you vote?

Ballot question

The ballot question was as follows:[1]

> An act adopting the born-alive infant protection act; providing that infants born alive, including infants born alive after an abortion, are legal persons; requiring health care providers to take necessary actions to preserve the life of a born-alive infant; providing a penalty; providing that the proposed act be submitted to the qualified electors of Montana; and providing an effective date.

Elon had an infant son die and Alex caused the Sandy Hook parents a lot of unnecessary added suffering.

Its a personal bias to why Elon won't let him back.

The notion that Balenciaga were ignorant to the fact that their kiddie BDSM photo shoot also featured a document relating to child porn is utterly absurd.

Note how the company also left Twitter after Elon cracked down on child exploitation. The whole thing is beyond vile.

The fact that they immediately caved because (God forbid) Harry Kane might get a yellow card, underscores yet again how all the sanctimonious virtue signaling is empty nonsense.

How about just abandon it entirely and concentrate on the actual football instead?

Football and FIFA are the most cucked of all sports from what I can tell. UFC fighter personalities obliterate Footballers in every single aspect because they're free to be themselves

It's not that he'd get a yellow card. It's that he'd continue to get yellow cards (and sent off), until he removed it.

So unless England wanted to do that, and exclusively get their captain sent off. Which would be a weird, weak protest. There's no point.
